The Beautiful guitar on the auction block is a "Tribeca" under license to BABICZ Guitars USA "OM" body style (based on the very well respected Martin OM style {Eric Clapton Model}).

The guitar is a Rosewood body, with a beautiful Sitka Spruce top. It features the BABICZ "C.A.N " neck height adjustment system, which with the provided Allen wrench, you can in seconds, adjust the "Action" (distance between string & neck {i.e. "low" electric style or "higher" better suited to ,slide guitar}). This feature has won Jeff Babicz A U.S patent & is now under license to "Martin Guitars", the premier name Worldwide in Acoustic Guitars since 1833. Martin just unveiled their new model featuring the system @ the NAMM (National Association of Music Merchandisers) 7-20-07. This is basically the same

model, but with some totally unique features, such as a "Matte" finish, Special VETUNES Inaugural Event Logo on guitar & TKL plush hard shell case. This is a full, rich sounding one of a kind guitar, never to be duplicated.

If you know your guitars, you'll be extremely surprised at the quality and significance of this instrument. A bargain at twice the price! You'll smile and give our Veterans A smile.

Our goal, raise \$10 Million to capitalize on current housing market conditions to supply Veterans and their families with housing/purchase of existing homes on the market.
